Internship

IT Analyst Intern

July 2025 - Aug 2025

Eastern Coalfields Limited (Govt. of India)

- Improved data processing accuracy by **15%** by optimizing enterprise data pipelines and validating large-scale datasets
- Increased operational efficiency by **20%** by streamlining reporting workflows and automating dashboard generation
- Integrated **SAP-based enterprise solutions** into existing systems, enabling seamless data flow across cross-functional workflows

Projects

LPU Smart Campus | FastAPI, PostgreSQL, Redis, Docker, OpenCV

Jan 2025 - Mar 2025

- Built a scalable campus management platform integrating **6+ workflows** (attendance, remedial, food, admin) with real-time processing, supporting **200+ REST API endpoints** and high-throughput request handling.
- Architected microservices-based backend using FastAPI, PostgreSQL, MongoDB, and Redis with caching and rate limiting, improving system scalability and ensuring consistent low-latency performance.
- Engineered fault-tolerant, event-driven system with async processing, RBAC, CI/CD (Docker, GitHub Actions), and observability (metrics + logging), ensuring high reliability across distributed workflows with **50+ test suites**.

- App link: app.lpusmartcampus.site

VidyaVerse (Ivy League Opportunity Intelligence Platform) | FastAPI, Next.js, MongoDB, Redis, Playwright

Feb 2026 - Apr 2026

- Built a distributed data platform aggregating opportunities from **12+ sources** via concurrent ingestion pipelines (**~250+ items/run**), implementing deduplication and ensuring scalable, high-throughput data processing.
- Designed and deployed **20+ JWT-secured REST APIs** with async processing (asyncio, APScheduler) and Redis caching, enabling low-latency (**~242 ms p95**) and fault-tolerant backend workflows.
- Integrated ML-based ranking pipeline (embeddings, vector search, RAG) and automated workflows using Playwright, improving user engagement with **+58% CTR** and **+153% apply-rate** through A/B experimentation.
- Github Repository Link: github.com/ankan00V/Ivy-League-Portal

Certifications

Oracle Certified Associate – Java SE 8 | [Certificate Link](#)

April 2025

Databricks Generative AI Fundamentals | [Certificate Link](#)

May 2025

OCI 2025 Certified Generative AI Professional | [Certificate Link](#)

July 2025

Achievements

Secured Rank 2 at AlgoUniversity Graph Camp | [Certificate Link](#)

Dec 2025

- selected among **Top 50 from 40,000+** applicants pan-India
- solved **17 advanced graph problems** under mentorship of Codeforces Master; mentored by Apple & Google experts

Technical Skills

Languages: C++, Python, JavaScript, SQL

Frameworks: FastAPI, Django, Next.js

Backend & Systems: REST APIs, Microservices, Distributed Systems, Async Processing, System Design

Databases: PostgreSQL, MongoDB, Redis

Tools: Git, Docker, Kubernetes, Linux, Playwright

Concepts: Scalability, Caching, Rate Limiting, High Availability

Soft Skills: Problem-Solving, Analytical Thinking, Team Player, Adaptability, Communication

Education

Lovely Professional University Punjab

2023 – 2027

Computer Science and Engineering — CGPA: 8.0

Jalandhar, Punjab

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks
