SUMMARY

Data Analyst / Data Engineering enthusiast with experience in SQL, Python, ETL pipelines, data transformation, and Power BI dashboard development. Skilled in analyzing large datasets, building reporting solutions, and delivering actionable business insights through data visualization and statistical analysis.

SKILLS

Languages: Python, SQL, C++

Data Analysis & Visualization: Pandas, NumPy, SciPy, EDA, Power BI, Excel, Statistical Analysis

Data Engineering: ETL Pipelines, Data Cleaning, Data Transformation, Data Validation, Data Warehousing, Data Modeling, Entity Relationship Modeling

AI/ML: Scikit-learn, NLP, Recommendation Systems, A/B Testing, Model Evaluation

Backend: FastAPI, REST APIs, Data Pipelines

Databases: PostgreSQL, MySQL, MongoDB, RDBMS Concepts

Tools & Platforms: Git, Docker, Jupyter, Google Colab

INTERNSHIP

IT Analyst Intern | Eastern Coalfields Limited (Govt. of India) | [Link](#) Jul'25 – Aug'25

- Improved data accuracy by **15%** through data validation, cleansing, and transformation of enterprise SAP datasets used in reporting pipelines.
- Built Power BI dashboards and automated reporting workflows, reducing report preparation effort by **20%** while enabling self-service analytics for business stakeholders.
- Performed SQL-based analysis on large operational datasets to identify trends, support business reporting, and improve decision-making processes.

PROJECTS

VidyaVerse | Python, SQL, NLP, Vector Search, Recommendation Systems, A/B Testing | [GitHub](#) Feb'25 – Apr'26

- Designed an end-to-end recommendation system for personalized internship and opportunity matching, processing 15K+ user interactions and improving CTR by 58% and apply-rate by 153% through controlled A/B experiments.
- Built and evaluated ranking pipelines using Precision@K, Recall, nDCG, and MRR, achieving 200% improvement in retrieval quality and model performance.

LPU Smart Campus | Python, FastAPI, PostgreSQL, MongoDB, Data Pipelines | [GitHub](#) Jan'26 – Mar'26

- Architected a real-time data platform for campus analytics and attendance insights, enabling automated attendance tracking and decision workflows across 14+ modules.
- Developed scalable data pipelines integrating 200+ APIs and SQL-based data processing (PostgreSQL), supporting high-frequency data ingestion and analytics.

Public Policy Analytics | Python, Pandas, NumPy, Excel, Data Visualization | [GitHub](#) Apr'26 – May'26

- Analyzed 14K+ government welfare records using Python, Pandas, and statistical techniques to identify demographic trends, regional disparities, and key performance indicators for policy evaluation.
- Built interactive Power BI dashboards featuring KPI monitoring, drill-through analysis, and trend visualization to support data-driven decision making.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Data Science Professional | [Oracle](#) Jul'25
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional | [Oracle](#) Jul'25
- Databricks Accredited Generative AI Fundamentals | [Databricks](#) May'25
- Oracle Autonomous Database Cloud Certified Professional | [Oracle](#) Sep'25

ACHIEVEMENTS

- Rank 2 – Accelerator Graph Camp | [Link](#)** Dec'2025
- Rank 2(LPU), AlgoUniversity (Top 50 / 40,000+ applicants)** — mentored by engineers from Apple & Google
- Dean's List (Top 10%), Lovely Professional University | [Link](#)** Present

EDUCATION

Lovely Professional University

Bachelor of Technology

Computer Science and Engineering; CGPA: 8.01

Phagwara, Punjab

Aug' 23 – Present
