

Experience

Software Development Engineer Intern

June 2026 - Aug 2026

Aviva Infotech / NIIT IEB | Remote

- Developing **LLM-powered backend features and AI/ML pipelines** using FastAPI; collaborating across engineering and data science to deliver scalable AI-powered services per sprint.
- Participating in code reviews, sprint planning, and architecture discussions; documenting technical specifications and implementation decisions.

IT Analyst Intern

July 2025 - Aug 2025

Eastern Coalfields Limited (Govt. of India)

- Engineered **Python ETL pipeline** to automate SAP data extraction and report generation across 2 departments, eliminating **3 hours/day** of manual processing and reducing data errors from 12% to under 2%.
- Streamlined **Power BI** reporting by automating pipeline refresh via REST API and batch scripts, reducing delivery time from **24 hours to 1 hour** and removing 4 daily manual interventions.

Projects

LPU Smart Campus | FastAPI, PostgreSQL, Redis, Docker, Celery, GitHub Actions | [GitHub](#)

Jan 2025 - Mar 2025

- Built a campus-wide management platform — designed and implemented **210 REST API endpoints** across 14 modules (56K LOC, 219 Pydantic schemas), achieving **sub-100ms P95 latency** under 1,000 concurrent users via async ASGI, connection pooling, and O(1) Redis cache reads.
- Deployed fault-tolerant system with RBAC, AES-256 encryption, idempotent checkouts, Docker CI/CD, and **Prometheus observability**; 450+ tests (**92.7% coverage**, pytest + HTTPX), zero-downtime rollouts; real-time events via **Redis pub/sub SSE** to 800+ concurrent connections.

VidyaVerse | FastAPI, Next.js, MongoDB, Redis, Playwright, MLOps | [GitHub](#)

Mar 2026 - Present

- Built an opportunity discovery platform for students — architected async ingestion pipeline aggregating **600+ records from 50+ sources** with deduplication, achieving 85%+ cache hit rate and **P50 latency of 30-103ms** under 100 req/sec (Redis + MongoDB).
- Designed and shipped **RAG-based ML ranking pipeline** (embeddings, vector search, LightGBM); validated across 130+ model versions via A/B framework, producing **+58% CTR lift and +153% apply-rate improvement** across 3 active experiments.

Incident Commander | Python, FastAPI, Docker, Pydantic, Pytest | [GitHub](#)

Apr 2026 - May 2026

- Built an environment to evaluate AI agents on real-world SRE incident response — engineered **FastAPI-based benchmark** (OpenEnv standard) covering 4 scenario types, 16 deterministic episodes, and 8 action types across outages affecting 316,400 simulated users.
- Developed dense-reward grading pipeline to benchmark Llama 3.1 agents (8B / 70B / 405B), achieving **92.5% baseline accuracy**; containerised evaluation stack in Docker — all 33 test cases pass with full OpenEnv schema compliance.

Achievements

- All India Rank #122** — Naukri Campus Young Turks 2025. Top 500 / 500,000+ participants nationally (Coding, DS & AI track).
- AlgoUniversity Accelerator Graph Camp** — Selected Top 50 nationally from 40,000+ via competitive coding contest; ranked **2nd at LPU** among all campus qualifiers.
- Dean's List recipient**, Lovely Professional University. Top 10% of batch by academic performance.
- GSSoC 2026 Contributor** — merged 3 PRs to OpenCode (Next.js / Node.js): Discord OAuth 2.0, session-token management, and leaderboard endpoint optimised by **~200ms** via Redis caching; 85%+ test coverage maintained.

Certifications

Oracle Certified Associate - Java SE 8 | [Certificate Link](#)

April 2025

OCI 2025 Generative AI Professional | [Certificate Link](#)

July 2025

Technical Skills

Languages: C++, Python, JavaScript, SQL, Java**DSA & CS Fundamentals:** Data Structures, Algorithms, OOP, Operating Systems, DBMS, System Design**Frameworks:** FastAPI, Django, Next.js**Backend & Systems:** REST APIs, Microservices, Async/ASGI, RBAC, Idempotency, CI/CD, Event-Driven Architecture**Databases:** PostgreSQL, MongoDB, Redis**AI/ML:** RAG, Vector Search, LLM Evaluation, Embeddings**Tools:** Git, Docker, Kubernetes, Celery, Prometheus, GitHub Actions, Linux, Playwright

Education

Lovely Professional University

2023 - 2027

Computer Science and Engineering. CGPA: 8.01

Jalandhar, Punjab
